NOTES TO CONSOLIDATED FINANCIAL STATEMENTS:

1. **Stock Repurchase Program**

We repurchased and retired 5.0 million and 7.4 million shares of common stock under our stock repurchase program in the first six months of 2016 and 2015, respectively, at a cost of \$400 million and \$765 million, respectively. The timing and volume of purchases is guided by our assessment of market conditions and other pertinent factors. Any near-term share repurchases are expected to be made with internally generated cash, cash on hand, or proceeds from borrowings. Since the beginning of 2006, we have repurchased and retired 156.1 million shares at a total cost of \$9.9 billion.

2. **New Accounting Pronouncement- Deferred Taxes**

In November 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-17, *"Balance Sheet Classification of Deferred Taxes."* This update requires that deferred tax liabilities and assets be classified as noncurrent on the balance sheet rather than as separate current and noncurrent amounts. We adopted the provisions of this ASU during the first quarter of 2016 and applied it retrospectively. The adoption of ASU 2015-17 resulted in the presentation of \$110 million of current deferred income tax assets as a reduction of "Deferred income taxes" in the long-term liabilities section of the Consolidated Balance Sheet at June 30, 2016. We retrospectively presented the December 31, 2015, Consolidated Balance Sheet and related disclosures to reflect the reclassification of \$121 million of deferred income tax assets from "Deferred income taxes" in the current assets section of the balance sheet to "Deferred income taxes" in the long-term liabilities section of the balance sheet.

3. **New Accounting Pronouncement- Stock-Based Compensation**

In March 2016, the FASB issued ASU No. 2016-09, *"Improvements to Employee Share-Based Payment Accounting."* We adopted the provisions of this ASU during the first quarter of 2016. This update principally affects the recognition of excess tax benefits and deficiencies and the cash flow classification of share-based compensation-related transactions. The requirement to recognize excess tax benefits and deficiencies as income tax expense or benefit in the income statement was applied prospectively, with a benefit of \$6 million recognized in the "Provision for income taxes" line item for the six months ended June 30, 2016. The classification requirements on the Consolidated Statements of Cash Flows for the adoption of ASU 2016-09 resulted in a \$23 million increase in "Current liabilities other than debt" within the operating activities section and a corresponding decrease in "Common stock transactions" within the financing activities section for the first six months of 2016. We retrospectively presented the Consolidated Statements of Cash Flows for the first six months of 2015 to reflect a \$28 million increase in "Current liabilities other than debt" within the operating activities section and a corresponding decrease in "Common stock transactions" within the financing activities section.
